Thanks so much for the opportunity to meet with your team and share information about the Neighbors app and Law Enforcement Portal!

Attached is a copy of the MOU for review and signature. If there are any questions or concerns, please advise.

Below are some bullet points regarding the Neighbors App and Law Enforcement Portal:

The cornerstone of this effort is the Neighbors app, a smartphone app that allows citizens to participate in a digital neighborhood watch, sharing crime and safety information with their neighbors.

• The Neighbors app is free to download. Users are not required to own a Ring device.
• Neighbors share crime and safety information with their neighbors in the form of video, photos or text.
• The app is completely vendor neutral. Neighbors can upload and share videos from any home surveillance system.
• Neighbors receive real-time alerts about crime and safety incidents occurring in their neighborhood.
• Moderators actively review all posts to ensure they are crime & safety related.

The Neighbors Law Enforcement Portal is a web-based portal that allows law enforcement to collaborate with members of the online community using the Neighbors app.

• The Neighbors Portal displays all of the publicly shared posts from the neighbors app in the form of an interactive feed and pin map.
• Law enforcement can engage neighbors by commenting on posts, requesting or sharing additional information.
• The Portal allows law enforcement to send hyper-local alerts to neighborhoods.
• When a crime occurs, the Portal provides a mechanism to submit a request for video to Ring device owners.
